

CAHSS & WECAHN

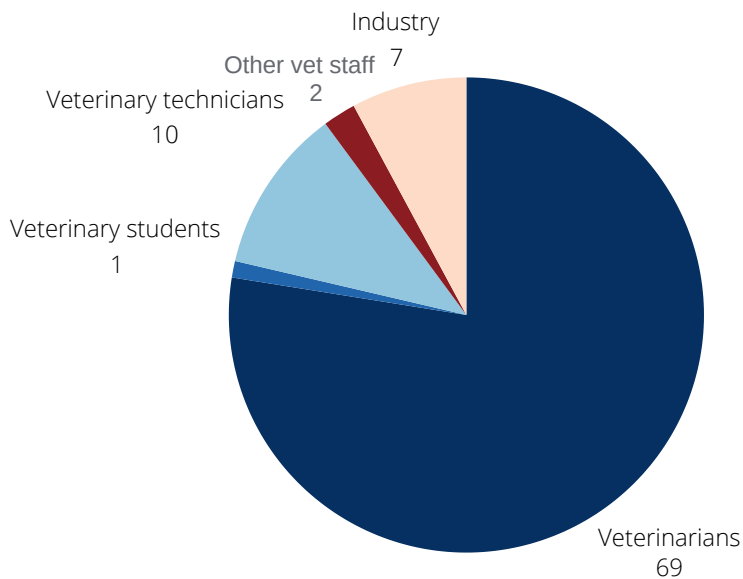

STRANGLES UPDATE 2024 - STATS

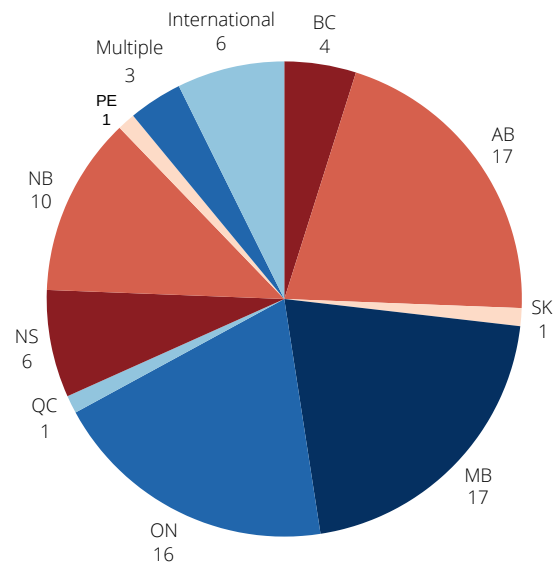

This session with speaker Dr. Ashley G. Boyle provided veterinary professionals and industry stakeholders with information on strangles, a contagious disease of equids caused by *Streptococcus equi*. The session covered topics including pathogenesis, clinical symptoms, diagnostic testing, biosecurity, and cleaning/disinfection practices. There was a cross-Canada update on strangles from Drs. Alison Moore, Ashley Whitehead, Barb Wilhelm, Martin Rondeau, and Kathleen MacMillan.

A recording of the session is available [here](#).
