# May Working Group Meeting Highlights

## Smallholder Working Group

- Engagement strategies to collaborate more effectively with smallholders.
- HPAI update, including considerations for smallholders.
- Provincial laboratory testing programs for smallholders.

## Wildlife-Domestic Animal Working Group

- Engagement strategies to collaborate more effectively with smallholders, especially when considering wildlife.
- Increase in rabies cases in Northern Ontario.
- Ongoing disease surveillance projects in wildlife across Canada.

# National data platform

Led by CAHSS, the national data platform consolidates and transforms disparate data into a standardized format for meaningful analyses and comparisons on animal health data across Canada.

The CAHSS data platform has two data streams:

1

Provincially  
inspected  
abattoirs

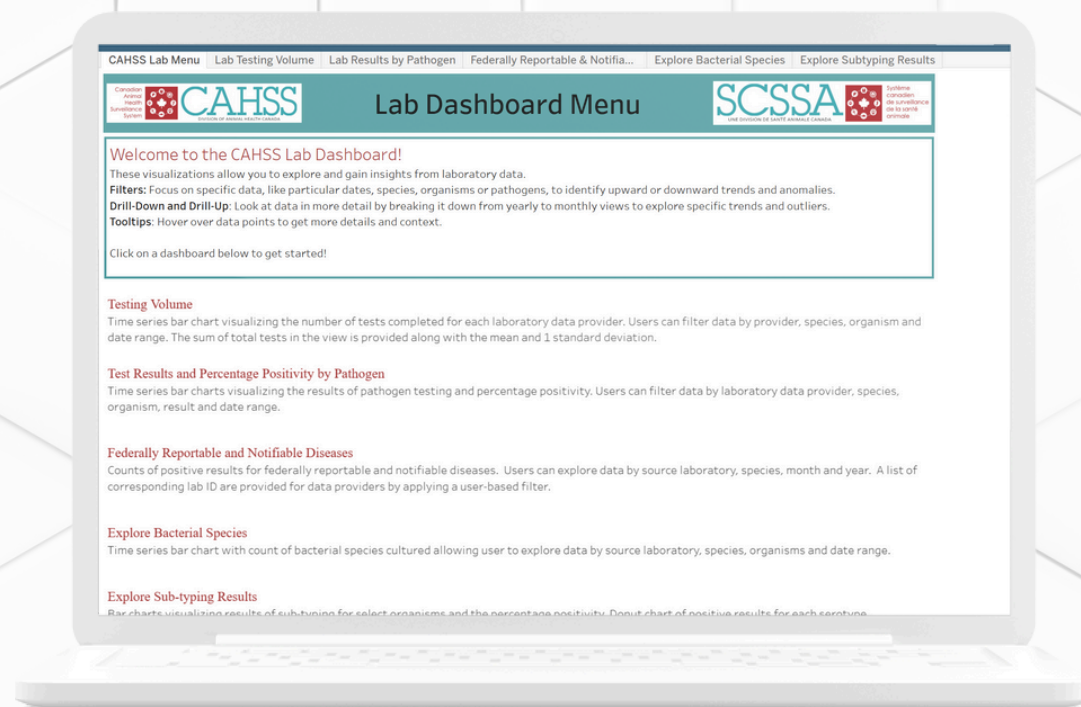

2

Provincial  
veterinary  
diagnostic  
laboratories

CAHSS is collaborating with new data providers to bring them onto the data platform.

**NATIONAL FARM ANIMAL CARE COUNCIL**  
**CONSEIL NATIONAL POUR LES SOINS AUX ANIMAUX D'ELEVAGE**

- Our colleagues from the National Farm Animal Care Council have been busy!
- Five Codes of Practice continue to be updated and one Code is being amended through NFACC's Code process.
- Read about the progress being made on each Code: beef cattle; sheep; equine; hatching eggs, breeders, chickens, and turkeys; pigs; pullets and laying hens.

[Visit the NFACC website!](#)

- RAIZO monitors, protects, and controls animal health in agricultural production in Quebec.
- The latest quarterly report for the Poultry Network discussed infectious bronchitis, *E. coli*, *Enterococcus cecorum*, reovirus, avian metapneumovirus, and HPAI.
- The latest quarterly report for the Bovine Network discussed bovine respiratory disease complex, HPAI, *Salmonella* Dublin, and rabies.
- The latest alert from the swine network reports new cases of porcine deltacoronavirus.
