Salmonella Dublin in Ontario

Salmonella Dublin Cases in Ontario 2012-2019 by Commodity

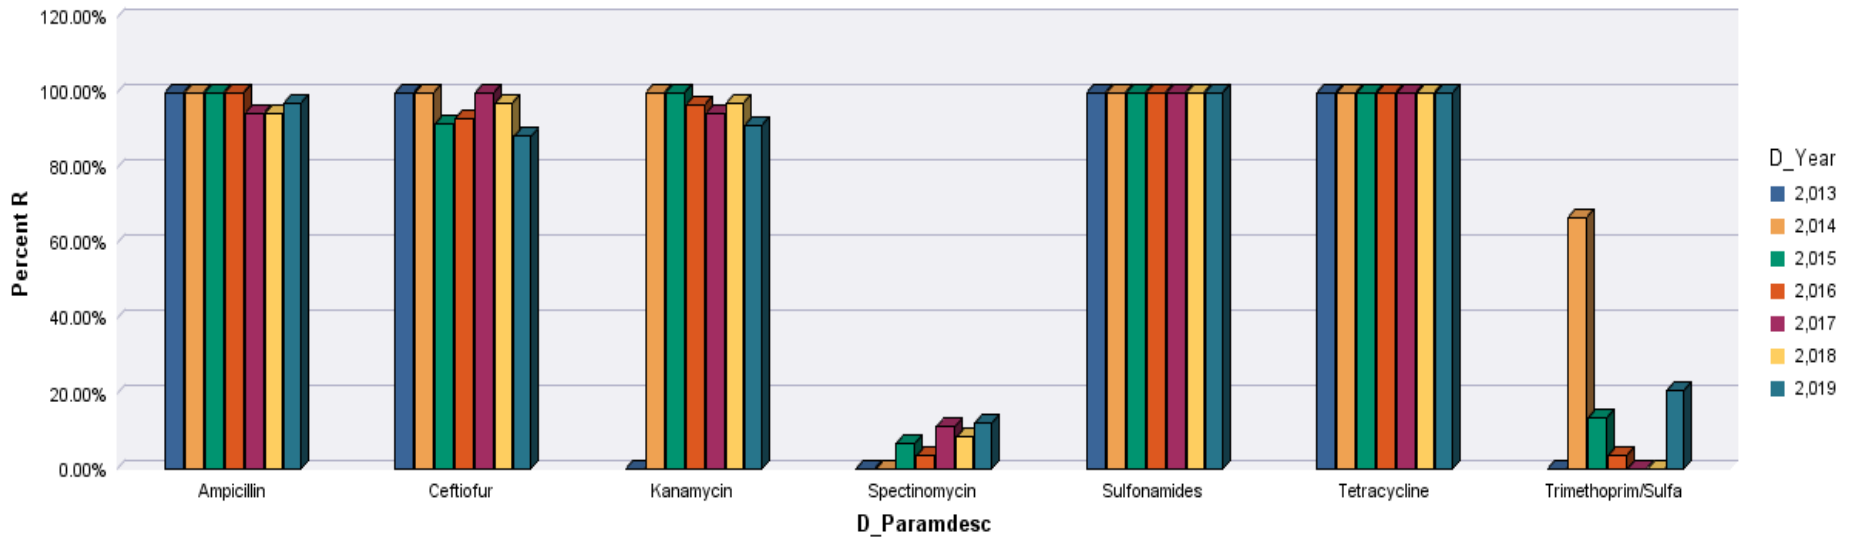

Salmonella Dublin in Ontario – 2012-2019

Salmonella Dublin in Ontario

Antimicrobial resistance patterns from Animal Health Laboratory data

Care of Dr. Durda Slavic and Dr. Murray Hazlett, Animal Health Lab

Salmonella Dublin Working Group

- Overall goal/priority: Protect animal and public health
- Establish collaboration between government, industry, academia, and veterinarians and facilitate the sharing of information between these groups
- Connect with Public Health to characterize and draw attention to the risk to cattle handlers and consumers
- Determine gaps in *Salmonella* Dublin information and response
- Investigate the need for guidance material for the bovine industry including disease recognition, biosecurity, and strategies for on-farm monitoring
